Welcome to Sahara Life Family

The Plan

Sahara India Life Insurance Co. Ltd. introduces Sahara Surakshit Pariwar, a non-linked, non-par micro endowment life insurance plan with objective of reaching to socially weaker sections of the society who have a need for savings and protection. It is a simple plan that serves twin purposes of providing life cover and building your savings.

Sahara Surakshit Pariwar will fulfill not only insurance but also savings related needs of the customer by paying monthly premium of Rs 500 or Rs 250 for 5 years or 10 years respectively. The policyholder will not only get protection but also reasonable return at very nominal cost.

Plan Details

Minimum Age at entry	18 Years (Completed)
Maximum Age at entry	50 Years (Nearer birthday)
Sum Assured	Rs 30000/- per life i.e. sum assured is fixed per life under the plan.
Policy Term	5 Years to 10 Years
Premium Paying Term	5 years for Policy term 5 to 9 years 10 years for Policy term 10 years
Premium (fixed for all ages)	Rs. 500 per month premium is fixed for premium paying term of 5 years and Rs. 250 per month for premium paying term of 10 years.
Maximum Coverage Age	60 Years

What are the modes available for premium payment?

Monthly only.

Grace period for non-forfeiture provisions

Grace period of 30 days irrespective of any calendar month will be allowed to pay premiums. In case premium is not paid within the grace period and if death occurs within this period, the policy will be still valid and the sum assured shall be paid to the claimant after deduction of outstanding premium falling due before the next monthly premium due date.

Can the policy be revived?

If premium is not paid within the grace period, the policy shall lapse. A policy can be revived within 2 years from the date of first unpaid premium of the policy but before the date of maturity on payment of all arrears of premium together with interest at such rate as may be decided by the Company from time to time and submission of proof of continued insurability to the satisfaction of the Company. However the Company reserves the right to accept or decline the revival of the policy subject to Board approved Underwriting guidelines. The revival of the policy shall take effect only after its approval is specifically communicated to the policyholder.

What is non-forfeiture benefit if the payment of premium is discontinued?

If the premiums have been paid for at least two years for 5 years Premium paying term and 3 years for 10 years premium paying term and the policyholder does not pay due premiums thereafter within the grace period, the policy will be automatically converted into a paid-up policy and will be entitled for reduced benefits. The default non-forfeiture option is a paid-up policy. The reduced benefit payable on death will be paid up sum assured on death plus accrued guaranteed annual additions where paid up sum assured on death will be calculated as the number of premiums paid to the total number of premiums payable multiplied by the sum assured on death. The sum assured on death used for arriving at paid up sum assured on death will be calculated as higher of sum assured or 105% of premiums paid. The maturity benefit will be paid up sum assured along with accrued guaranteed annual additions, where paid up sum assured is calculated on proportionate basis being sum assured multiplied by number of premiums paid and divided by total number of premiums payable. On acquiring paid-up status the policy will not be eligible for future guaranteed annual additions..

Further, in case the policy is under lapsed state (i.e. has not paid minimum due premiums to qualify for paid-up status depending upon premium paying term) and has paid more than one year premium, 50% of total premiums paid will be payable to the beneficiary at the end of policy term.

Can the policy be surrendered?

If premium paying term is 5 years, surrender benefit is payable after at least two full years premiums have been paid and if premium paying term is 10 years, surrender benefit is payable after at least three full years premiums have been paid.

On surrender higher of special surrender value or guaranteed surrender value will be paid, where guaranteed surrender value is 100% of the amount of premiums paid till date of surrender and Special surrender value (SSV) is equal to 90% of cash value of paid up sum assured plus accrued guaranteed annual additions where paid up sum assured is calculated as sum assured multiplied by number of premiums paid and divided by total number of premiums payable.

Is loan available?

Loan will be available under this product and the scale of loan amount is 90% of surrender value. The rate of interest on loan amount will be decided by the company depending upon economic conditions.

What are the benefits under the policy?
