- NAV Computation and unit price:**

When Appropriation price is applied: NAV under each fund will be computed as under, (Market Value of investments held by the fund + the expenses incurred in the purchase of the assets + the value of any current assets + any accrued income, net of fund management charges -the value of any current liabilities - provisions, if any). This gives the Net Asset Value of the fund. Dividing this by the number of units existing at the valuation date (before any new units are allocated) gives the unit price of the fund under consideration.

When Expropriation price is applied: NAV under each fund will be computed as under, (Market Value of investments held by the fund - the expenses incurred in the sales of the assets + the value of any current assets + any accrued income, net of fund management charges -the value of any current liabilities - provisions, if any). This gives the Net Asset Value of the fund. Dividing this by the number of units existing at the valuation date (before any new units are redeemed) gives the unit price of the fund under consideration.

The unit prices shall be computed based on whether the Company is purchasing (appropriation price) or selling (expropriation price) the assets in order to meet the day to day transactions of unit allocations and unit redemptions.

The appropriation price shall apply in a situation when the Company is required to purchase the assets to allocate units at the valuation date. The Expropriation price shall apply in a situation when the Company is required to sell the assets to redeem units at the valuation date.

At the beginning of each month level mortality charges will be charged on the Basic Sum Assured.

The Service Tax as per Regulations in force from time to time will be levied on a monthly basis by cancellation of units at the prevailing unit price. Currently, the service tax is applicable on mortality, rider and fund management charges.

Note: The administration charges, mortality and rider charges will be collected monthly by cancelling requisite number of units from the Life Assured's unit account till the policy becomes a claim by death / by maturity / by surrender/ by discontinuance, whichever comes first.

OPTIONS UNDER THE PLAN

1. Auto Transfer Option (ATO)

This option reduces the risk of investing the full premium into a fund with a volatile NAV, by allowing premiums to be invested in a low risk fund "Preserver" and gradually transferring the money into chosen investment portfolio.

Policyholder can choose 6 or 12 month Auto Transfer Option to invest regular premiums. If the policyholder opts 12 month Auto Transfer Option, 1/12th of allocated premium will be invested in the chosen fund and the balance will be invested in the Preserver Fund. One month later 1/11th of the fund in the Preserver fund will be transferred to the chosen fund and this process will be continued until all the funds in the Preserver Fund are transferred. This process will be repeated as and when premium is received.

Policyholder can cancel this option during the policy term. There is no restriction, but the selected option will become effective from the subsequent premiums.

When ATO is opted, partial withdrawal and switching between the funds are allowed except that the policyholder cannot switch from the existing funds to the Preserver.

ATO is available at free of charge.

2. Settlement Options

On surviving up to the end of the policy term, instead of the maturity value, Policyholder can opt to withdraw either wholly or partly at any time the units in his credit in not more than 5 installments, within a period of five years from the date of maturity, at the prevailing Net Asset Value at the

time of each installment. During this period Fund management charge will be deducted. Since no cover is extended after the policy term, death benefit during this period is only fund value as on date of death.

Investment risk should be borne by the policyholder during settlement period. Partial withdrawals and fund switching are not allowed during the settlement period.

3. Alterations

Alterations are allowed under the policy on receipt of a written request from the policyholder. Alterations allowed are

- Reduction of sum assured
- Addition of riders during the policy term

The Sum Assured can be reduced up to

For age at entry below 45 years -

Higher of (10 X Annualized Premium, 0.5 X Annualized Premium X Policy term)

For age at entry 45 years and above -

Higher of (7 X Annualized Premium, 0.25 X Annualized Premium X Policy term)

Once the Sum Assured is reduced, no alteration is allowed to increase the Sum Assured again. Also the basic premium cannot be altered.

Addition of riders is allowed when a minor life assured attains majority during the policy term. However an alteration fee of ₹ 200 will be levied from fund by cancelling appropriate number of units in the credit.

4. Partial Withdrawals

Any part of the fund that is en-cashed / withdrawn by the policyholder during the period of contract is referred to as partial withdrawal.

This facility is allowed only if the life insured is above 18 years of age. The minimum amount withdrawn each time should be at least Rs.10000/-.

For every partial withdrawal, a partial withdrawal charge of Rs.100/- will be levied. After any partial withdrawal, at least an amount equal to Rs. 10,000/- plus Top-up premiums (if any) paid during 5 years preceding the date of withdrawal should be available in the policyholders' unit account.

Death benefit will be reduced by the amount of partial withdrawals made during the last two years immediately preceding date of death.

5. Switching

The policyholder can switch units from one Fund to another Fund out of the funds mentioned above, during the policy term. The policyholder can switch units 2 times in a year without any charge. For each additional switch ₹100/- will be levied. Fund switches are not allowed during the settlement period.

6. Top-up premiums

Top-up premium is an additional premium over and above the contractual basic premiums. All due installment premiums must be paid before applying for a top-up.

A premium allocation charge of 2% of top-up premium will be deducted from each such lump sum and the balance will be allocated for units. However, such lump sum payment should be at least ₹5,000/- per payment.

Such an additional payment will be considered as a single premium, and shall have Insurance cover at 125% of top-up premium subject to underwriting conditions. This insurance cover shall remain constant during the period of the contract and shall be maintained by cancelling the units to the extent of the level mortality charges for the age and outstanding term as on date of top-up payment.

A lock in period of five years shall apply for each top-up premium, however, top-ups are not allowed during the last five years of the contract.

Top-up Sum Assured along with top-up fund value will be paid on death of the policyholder. Top up units will not attract any partial withdrawal charge or reduction of Sum Assured due to partial withdrawal.

7. Discontinuance and revival

If the policyholder does not pay the annual premium by the end of the grace period a notice will be sent within fifteen days from the expiry of the grace period. The policyholder will have the option to pay the outstanding premiums, or to completely withdraw from the policy without risk cover. He/she needs to respond to this notice within thirty days, during which your policy will be kept in force.

The policy will be discontinued if the policyholder exercise the complete withdrawal option or the company do not hear within thirty days from the date the notice has been sent.

If the policy discontinues during the lock in period of first five years, the life insurance and rider cover will cease and the value of the units will be transferred to the conservatively managed Discontinued Policy Fund, after the deduction of discontinuance charges.

The policyholder can revive the policy within two years from the date of discontinuance, but not later than the lock in period, by paying the outstanding premiums and satisfying underwriting requirements at the time of revival. The risk cover will be reinstated and the value of the units in the Discontinued Policy Fund, outstanding premiums received and discontinuance charges previously recovered will be invested in the unit linked funds selected by the policyholder after deducting outstanding premium allocation and policy administration charges.

If the policyholder do not revive the policy, the proceeds of the Discontinued Policy Fund (subject to a minimum guarantee as prescribed by the IRDA from time to time), will be paid to the policyholder at the end of the lock in period (or to the nominee in case of earlier death).

If the policy discontinues after the lock in period on non-payment of premium as described above, the fund value will be paid to the policyholder and the policy will be terminated. The policy cannot be revived thereafter.

8. Surrender

The policyholder can surrender his/her policy at any time during the policy term.

- If the policy is surrendered after completion of five policy years i.e. after lock in period, the unit fund value of the policyholder will be paid without any penalty.
- If the policy is surrendered before completion of five policy years i.e. within the lock in period, the unit fund value in the credit will be transferred to the Discontinuance policy fund after deducting the necessary discontinuance charges as stated above and the policy will be treated as discontinued policy. The proceeds of the discontinued policy (subject to a minimum guarantee as prescribed by IRDA from time to time) will be paid only after the fifth policy year is completed. In case of death of the life assured after surrender, the proceeds of the discontinued policy will be paid to the nominee immediately.

RIDERS OF THE PLAN

The policyholder has the option to select the following rider to be attached to the policy.
