How does the plan work

Ageas Federal Life Insurance Guaranteed Savings Plan is a single premium plan with a choice of policy term for 7 or 10 years. In the event of death of the insured person during the term of the policy the Company will provide death benefit. On survival of the insured till maturity of the policy, maturity benefit will be provided.

Shilpa (healthy female) is a doting mother of 8yr old daughter Sanika and a professional working with a leading private Company, with a steady stream of income.

Shilpa has received a windfall in the form of bonus from her Company which she wants to utilize for her daughter's future. So Shilpa buys Ageas Federal Life Insurance Guaranteed Savings Plan for Sanika where she pays Rs. 5,00,000 as a single premium for a policy term of 7 years. Sanika gets a life insurance cover of Rs. 50,00,000 and on maturity at the end of 7th year will receive Rs.7,61,000 as a lump sum. This would help her when Sanika is done with her schooling and about to step into a new phase of life towards building her future.

Maturity Benefit

The maturity benefit is guaranteed under this plan and is payable on survival of the life insured till the date of maturity and provided the policy is in force.

Maturity Benefit is same as Maturity Sum Assured. On payment of Maturity Sum Assured, the policy shall terminate and all rights, benefits and interests under the policy shall stand extinguished.

Maturity Sum Assured shall be calculated as below:

Maturity Sum Assured = Maturity Factor x Single Premium

Where,

Maturity Factor shall be determined at inception basis age at entry, Policy Term and Single Premium chosen by Policyholder.

Death Benefit

On the death of the insured person before the maturity date and while the policy is in force, we will pay to the beneficiary the Death Sum Assured.

Death Sum Assured is the highest of the following:

- ◆ 125% of Single Premium
- ◆ Guaranteed Sum Assured on Maturity (Maturity Sum Assured)¹
- ◆ Any absolute amount assured to be paid on death which is Basic Sum Assured²

Where,

¹Maturity Sum Assured is the lump sum guaranteed to be paid at Maturity.

²Basic Sum Assured is 10 times of Single Premium, including underwriting loadings, if any, but excluding Goods and Services Tax and cess as applicable.

On payment of Death Benefit, the policy will terminate and all rights, benefits and interests under the policy will stand extinguished.

Surrender Benefit

The policy will acquire surrender value immediately after payment of single premium.

Surrender Value = Higher of (Guaranteed Surrender Value (GSV), Special Surrender Value (SSV))

a. Guaranteed Surrender Value (GSV)

GSV = GSV factor x Single Premium paid, including underwriting loadings, if any, but excluding Goods and Services Tax and cess as applicable.

b. Special Surrender Value (SSV)

The Company, at its discretion, may pay a Special Surrender Value which may be higher than the Guaranteed Surrender Value. The SSV is not guaranteed and may be changed at any time, subject to the prior approval of the IRDAI.

The surrender value will be paid in a lump sum.

On payment of surrender benefit, the policy will terminate and all rights, benefits and interests under the policy will stand extinguished.

Vesting rights under a child policy

Where minor lives are covered, risk commences on the policy commencement date. Further, on attainment of his/her majority, the policy vests in the name of the insured person. Policies on minor lives can only be taken by parents, grandparents or legal guardian.

Where the policy is on the life of a minor and is scheduled to mature before him / her attaining age 18, the maturity benefit will be paid in hands of the policyholder. In case of the unfortunate death of policyholder before the maturity of policy, the benefits will be paid in hands of the policyholders' legal heir.

In the event of the death of the policyholder of a "child policy", the legal guardian of the child shall act as the policyholder until the child becomes a major. In such case the legal guardian shall then have the following options

- ◆ continue to hold the policy, or
- ◆ surrender the policy

Assignment will not be permitted in "child policies" during the time that the life insured is a minor.
